# Gas Outlet Boxes

Space Saving, Versatile  
and Strong

Metal Gas Outlet Box

Fire Rated Gas Outlet Box

Guy Gray and Water Tite's Gas Outlet Boxes feature a 1/4-turn ball valve for easy, secure and accessible operation. Combined with superior strength, these boxes reduce installation time and increase dependability. Recessed wall mounting eliminates floor connections so that appliances are closer to the wall, increasing the amount of livable space.

Ideal for residential, commercial and industrial direct connect applications, these Gas Outlet Boxes are available for 1/2" or 3/4" iron-pipe applications and 1/2" CSST applications in both standard and fire-rated products.

Each recessed box is made of high-impact resin or metal providing the strongest finished installation for all gas appliance needs. The valve is CSA certified.
